

Atmospheric CO₂ at Mauna Loa

Research analysis

What the data shows

Mean CO2 by decade (ppm)

Key findings

- The analysis in this report is limited to describing the published annual means and their decade averages; it does not attempt attribution or projection.
- Readers should note the gap in on-site measurements after the eruption of Mauna Loa in late November 2022: observations from December 2022 to July 2023 come from the Maunakea...
